UNOSIDER

Feel

The Shadow Experience

Unosider ha un'anima solida e rigorosa fatta di ferro e metallo e una più morbida e leggera fatta di tessuti e decori, una componente di precisione e tecnica e una invece più romantica e visionaria.

La nostra più grande capacità è quella di combinare elementi apparentemente in contrasto in uno scambio attivo e proficuo che crea un valore totalmente nuovo.

Da oltre 25 anni lavoriamo per condividere la nostra visione degli spazi esterni e costruiamo strutture che creano nuovi ambienti e nuove esperienze.

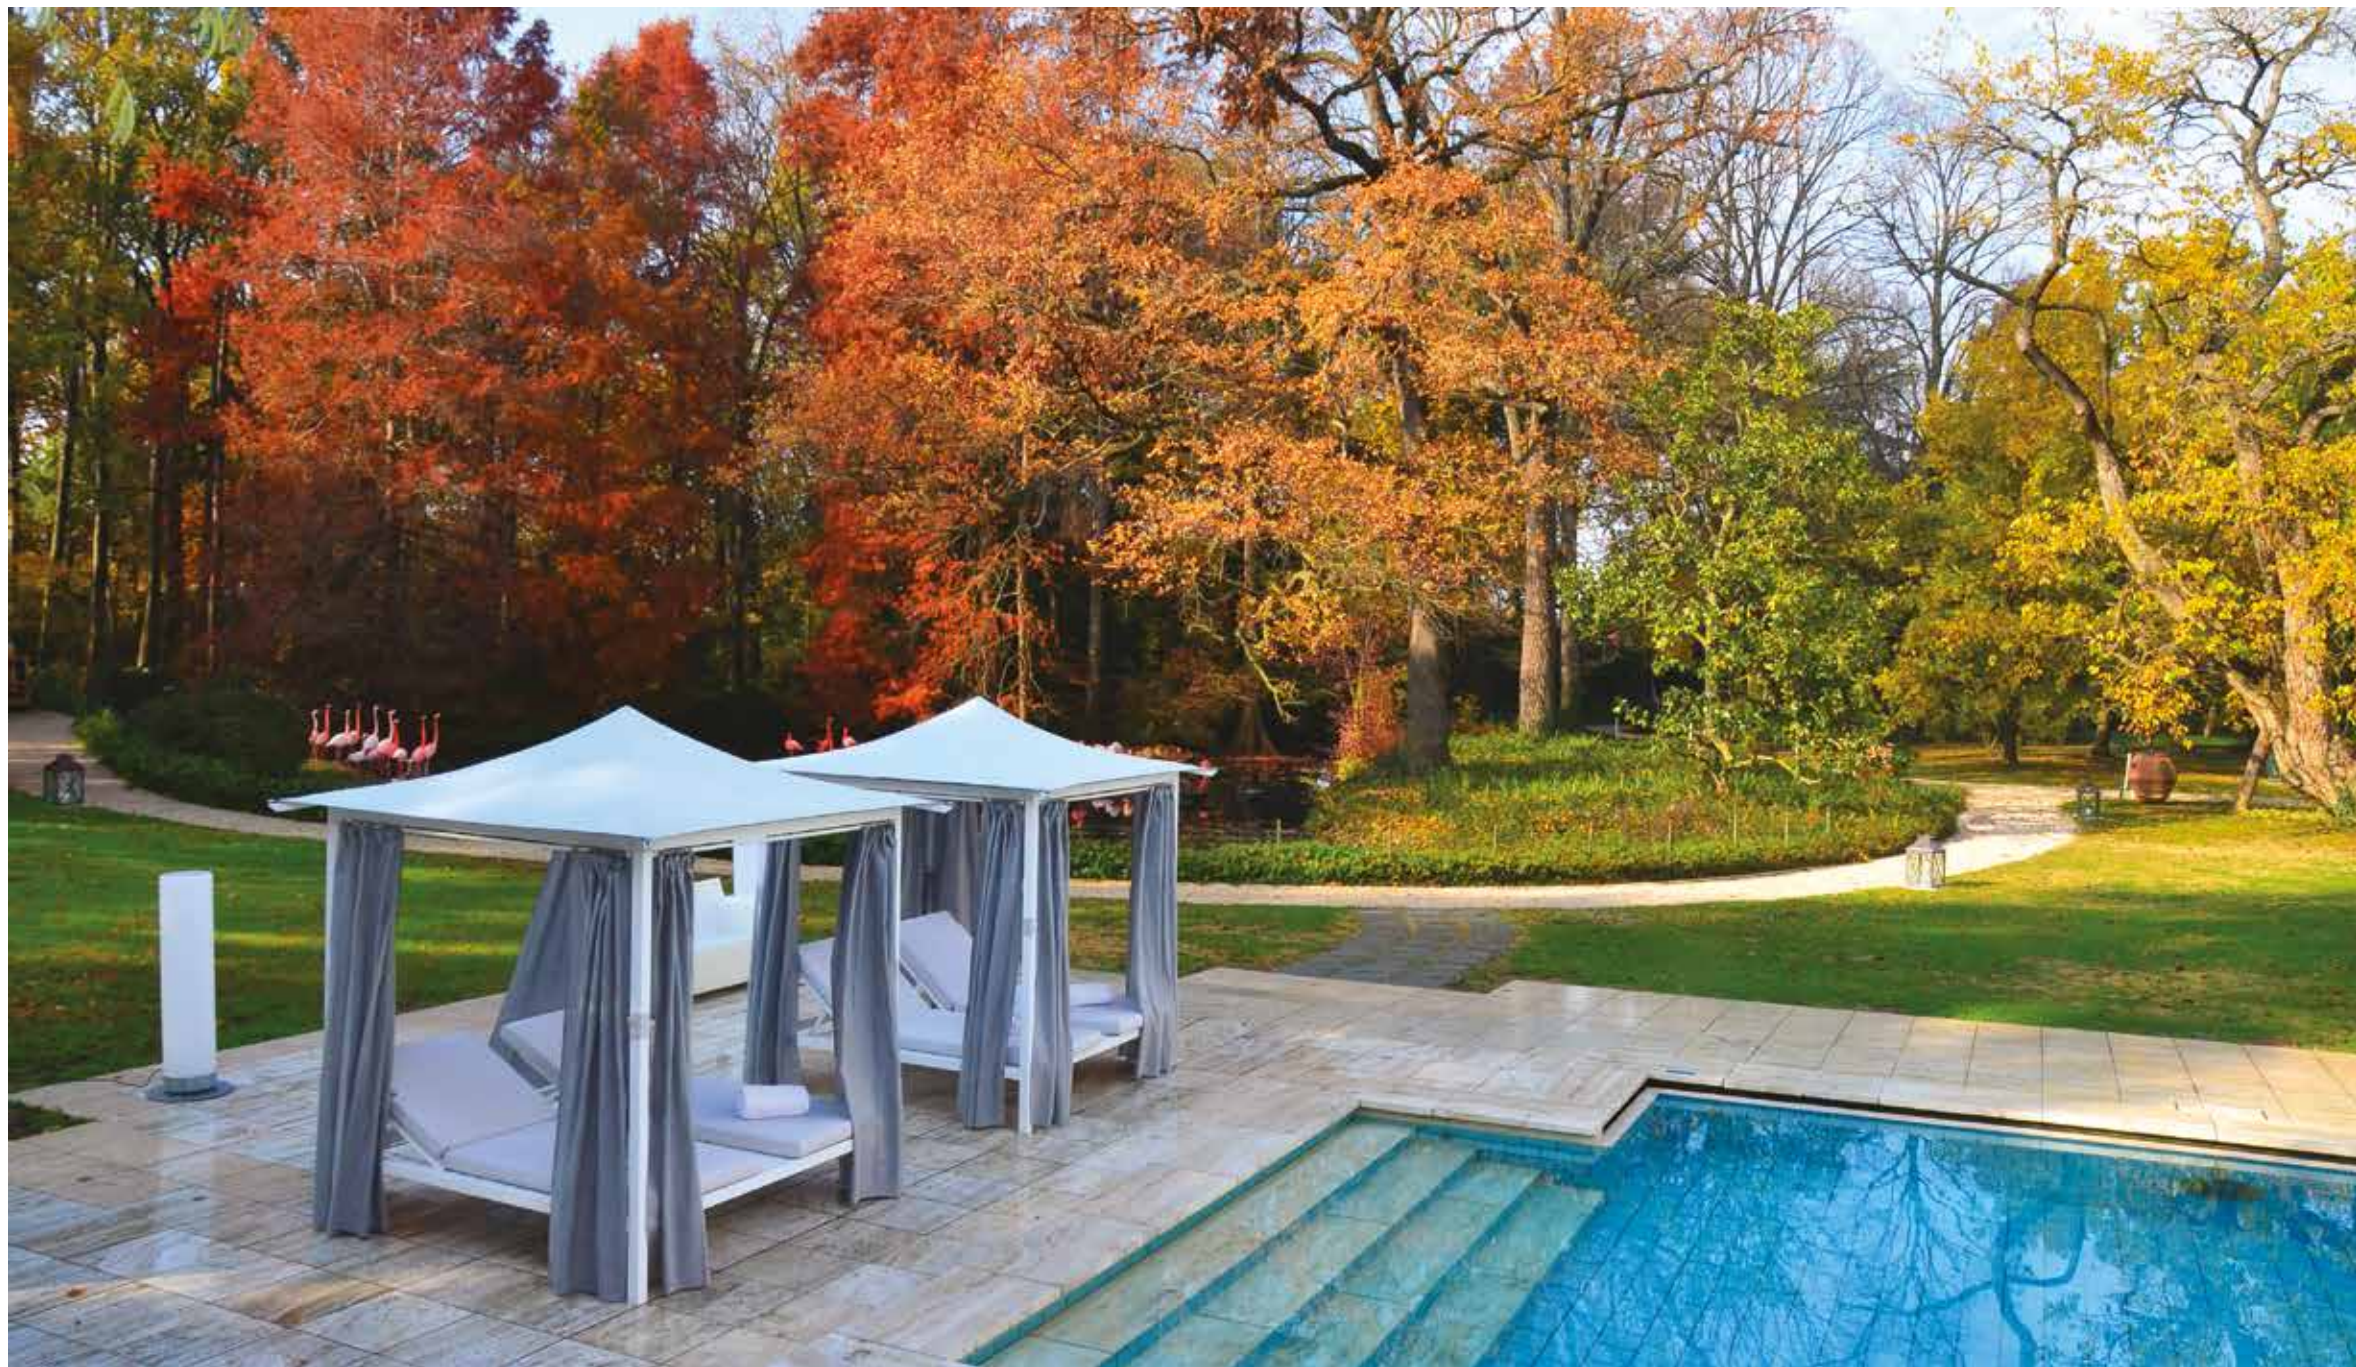

La nostra mission è porre al centro dell'attenzione i desideri e le necessità del cliente e "cucire per lui un abito perfetto realizzato con i migliori materiali".

Unosider has a solid and rigorous soul made of iron and metals and a softer and lighter one made of fabrics and decorations, a precise and technical side and a more romantic and visionary one.

Our greatest ability is to combine seemingly conflicting elements in an active and successful exchange that creates a whole new value.

For over 25 years we have been working to share our vision of outdoor space and build structures that shape new places and experiences.

Our mission is to focus our attention on the wishes and needs of the customer and "to sew a perfect dress made from the finest materials for him".

DAY LIVING

GAZEBO

Il Day Living è una piccola stanza all'aperto, la nostra personale versione di un salotto da esterno. Un prodotto contemporaneo con tetto a pagoda che unisce la novità estetica alla semplicità del sistema di tensionamento delle falde, frutto della cura tecnica di Unosider.

La copertura è in PVC con effetto tessile, mentre i cuscini e le tende laterali sono realizzati in tessuto acrilico tinto in massa per garantire una lunga durata del colore nel tempo.

In queste scelte trova applicazione la nostra continua ricerca in campo tessile:

nella selezione dei colori di maggior tendenza, nella preferenza per tessuti di alto valore qualitativo ed estetico, tessuti nuovi per l'outdoor, capaci di ombreggiare e al tempo stesso di mantenere un aspetto leggero e discreto, e nella confezione tessile di alto pregio, con finiture che guardano più alla sartorialità delle case di moda che alla tradizione outdoor.

Per una estetica ancora più lineare Unosider propone anche una versione con tetto piano in pvc microforato tesato.

In entrambe le versioni è disponibile la variante Living Up senza lettini inclusi.

Day Living is a small outdoor room, our personal version of an outdoor living room. A contemporary product with a pagoda roof that combines the aesthetic novelty with the simplicity of the roof tensioning system as the result of Unosider's technical care.

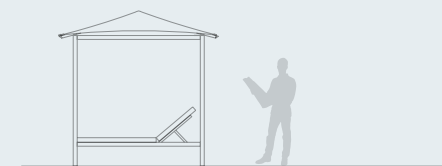

The cover is in PVC fabric with a textile effect, while the cushions and side curtains are made of dyed acrylic fabric to ensure a long lasting color over time.

In these choices our continuous research in the textile field is applied:

we select the most trendy colours, we prefer fabrics with high qualitative and aesthetic value, fabrics that are able to shade while maintaining a light and discreet appearance, and we choose very high quality textile packaging with finishes that belong more to the tailoring of fashion houses than to the outdoor market.

For even more linear aesthetics, Unosider also offers a version with a flat roof in micro-perforated PVC.

In both versions the Living Up variant is available, without any beds.

Misure standard: 2,12x2,12 metri
Realizzabile su misura
