FISSAGGIO A TERRA

GROUND FIXING

I prodotti possono essere fissati a terra tramite piastre in acciaio inox AISI 316.

I tasselli per l'ancoraggio non sono inclusi nel kit, ma devono essere acquistati in base al tipo di pavimentazione su cui si desidera fissare il prodotto.

Si consigliano 3 piastre per i vasi tondi e 2/4 piastre per i vasi quadrati e rettangolari.

Products can be fixed to the ground with AISI 316 stainless steel plates. Rawplugs are not included in this kit, they must be bought according to the ground where you want to fix the product.

We suggest 3 plates for round pots and 2/4 plates for square and rectangular pots.

MARCANTONIO AU MUR

AND POT AU MUR WALL FIXING

Il vaso viene fornito con due ganci in acciaio inox AISI 316. È resistente agli agenti atmosferici, al cloro, anticorrosione, adatto in ambiente salino. Tasselli a muro non compresi. Acquistate i tasselli più adatti al tipo di muro su cui andrete a fissare il vaso (mattoni forati, calcestruzzo, cartongesso, etc.).

The pot is provided with a hook in stainless steel AISI 316. It's resistant to weather, chlorine, corrosion and suitable in saline environment.

Nogs not included. Buy the nogs suited for the type of wall on which you are going to fix the pot (bricks, concrete, plasterboard, etc.).

ISTRUZIONI PER INVASATURA

POTTING INSTRUCTIONS

Interno

Riempire il vaso con 1/3 in altezza di argilla espansa, posizionare uno strato di tessuto drenante e completare il riempimento con terriccio idoneo per la pianta da invasare. L'argilla espansa svolge la funzione di riserva d'acqua, tratteneendo l'umidità in eccesso e rilasciandola nel caso essa sia insufficiente.

Indoor

Fill the pot with 1/3 in height of expanded clay, put a draining cloth and complete filling with soil suitable for the plant to pot. Expanded clay has the function of water reservoir, holding excess wet and releasing it in case it is insufficient.

Portavaso

Infine i nostri vasi possono essere utilizzati come cachepot (portavaso). Sugeriamo l'utilizzo di un semplice vaso iniezione (plastica) con relativo sottovaso (opzionale).

Cachepot

Finally, our pots can be used like cachepot. We suggest the use of an injection pot with relative saucer (optional).

Outdoor

Il nostri vasi possono anche essere utilizzati come dei vasi di terracotta, praticando con un comune trapano un foro sul fondo del vaso (foratura Ø 6 mm circa). I vasi in doppia parete devono essere forati nella parte interna e sul fondo.

Outdoor

Our pots can be used like terracotta pots, drilling the bottom part (hole Ø about 6 mm). Double wall pots must be drilled in the inner and in the bottom part.
